**OFFERINGS**

## **DESIGN**

---

In today's world first impression of any brand or business is usually associated with it's social media presence. Where presentation of the brand depends on content and design. These elements are crucial to our client's representation on social media. Our scope of work will include a mix of static images, gifs and animations catered to the specific needs of our clients.

## **STRATEGY**

---

Every brand needs recognition. At Smile Tech our aim is to manage our client's social media so that it receives appreciation from relevant audiences. Our first task is to learn about the client's business, identify targets and requirements and to create social media campaign strategy to achieve our said goals. This greatly helps out client's get a well directed approach to attaining relevant traffic for the respective social media assets.

## **WEB DEVELOPMENT**

---

Websites are an effective method to showcase any type of business. Internet evolution has made it mandatory for a business to maintain a website. It is as important for a business as water is to life. At Smile Tech our dedicated team members are well equipped to handle all types of websites ranging from simple informative websites to e-commerce stores. We work side by side with Google so that our client's website is google friendly, well optimized and most of all user friendly.

## **SEO**

---

Search engine optimization is necessary tool to get your business on the virtual map of the world. If internet is the highway, seo is what takes your business places. At Smile Tech we optimize all websites so that interested audience can find the website by simply writing words which describe the website.
